Marine Life Park Launches Up-Close Marine Life Encounters *New Immersive Experiences includes Open Ocean Dive, Sea Trek Adventure & Shark Encounter*

SINGAPORE, 21 May 2013 – Visitors to the Marine Life Park (MLP) at Resorts World Sentosa (RWS) can now get up-close with the majestic animals of the ocean. Starting tomorrow, Marine Life Park will progressively roll out a series of **Ultimate Marine Encounters** – immersing guests into a myriad of marine habitats.

The first to debut is the **Open Ocean Dive**, which allows certified divers explore the 18.2 million litre Open Ocean habitat, the centrepiece and highlight of the world's largest aquarium – S.E.A. Aquarium. This new scuba-diving programme will provide dive enthusiasts a convenient and accessible option to swim among 50,000 fishes of more than 80 different species, including manta rays, groupers, leopard sharks and many more, in one dive location.

This 150-minute premium dive programme will run every day at 10.30am, starting with a tour of the habitat and orientation. With up to four participants in each session, MLP dive masters will lead them on a 30-minute dive through the Open Ocean habitat, following a designated route as they explore the aquarium's largest habitat, spanning 56 by 30 metres, and dive down to a maximum of 12 metres. Divers must be aged 15 or above and possess current SCUBA diving certifications.

For guests without diving certification, the park will also be introducing **Sea Trek Adventure** come 30 June 2013, allowing even non-swimmers to immerse into the world's largest aquarium. The highlight of this hour-long programme is a 20-minute underwater helmet diving experience, allowing guests to breathe with ease as they descend atop a sea mount in the Open Ocean habitat, to stand in awe of a breathtaking panoramic view of the vibrant marine life and experience the wonders of an oceanic adventure.

"Getting near these majestic marine animals has never been easier, with a hassle-free experience from drive to dive. With all gear provided, it's only a matter of suiting up and taking the plunge," said Mr. Craig Sowden, Chief Curator of the Marine Life Park.

Mr. Sowden added, "As guests immerse themselves in the middle of the marine ecosystems, they will encounter first-hand the relationship between marine life and humans. Through these unique experiences, we hope that our guests walk away with a deeper appreciation for marine animals and be inspired to do their part to help protect the treasures of the deep blue."

Beyond the Open Ocean habitat, immersive experiences will also be launched at other marine habitats, including Shark Seas. Starting 15 June 2013, the new **Shark Encounter** will see guests come face-to-face with the apex predators of the seas. This 30-minute experience will be held thrice daily, inside the Shark Seas habitat which is home to more than 200 sharks. Guests will be descend inside a cylindrical acrylic enclosure, taking in a 360-degree view of hammerhead, sandbar, black-tip reef

sharks and other shark species swimming around and beneath their feet. More details on the immersive experiences are available in [Annex A](#).

Mr. Roger Lienhard, Senior Vice President of Attractions at Resorts World Sentosa is delighted that the Marine Life Park has fast garnered international awareness and recognition within a short time since its opening.

He said, “Launching these immersive experiences signifies our commitment to continually refresh and inject new elements into our attractions. This is just the start of many more exciting offerings to come at Resorts World Sentosa.”

Reservations for the *Open Ocean Dive* need to be made by emailing reservations@rwsentosa.com. Bookings for *SeaTrek Adventure* and *Shark Encounter* can be made at the Guest Services counters at Adventure Cove Waterpark.
